Part - II.

The present condition of the existing sets is as under:-

Set. No.1 :- The set was started in the year 1933. It has now completed - 17 years of services. The running condition of the set is not satisfactory. The exhaust was smoky and fuel oil consumption is very high. As the set is of high speed having 1000 r.p.m.the wear and tear on running parts is heavy. The D.C.dynamo of this set is shunt-wound and it cannot run into parallel with other installed sets.

Set No.2 :- The set was started in the year 1934. It has now completed 16 years of service. The running condition of the set is bad. The cylinder heads and upper frame of the engine were observed to be vibratings. The exhaust is very smoky and as the set is of high speed, many worn out parts require replacement for proper running of the set.

Set No.3 :- The set was started in the year 1935. It has now completed 15 years of service. The running condition of the set is good. Fuel consumption is rather high and the set requires over hauling and major replacements of spare parts.

Set No.4 :- The set was installed in 1936. The running condition of the set is satisfactory. Fuel consumption is high and the set requires complete overhauling.

Set No.5 :- The set was purchased 2nd hand and was installed in 1941. The running condition of the set is satisfactory.

Distribution System:- The distribution mains are ~~liad~~ laid on tabular poles by hard-drawn bare copper wires and on the whole the layout is well maintained.

General Remarks: The layout and P.H.machinery is designed for D.C.supply and hence for future extensions,it is desirable to convert the plant for A.C.supply. In the statement of Assets of Plant and Machinery it is mentioned by the Coy.- as under:-

Item 11.	Ruston 5VCR.	Approx cost. Rs.27,053-12-0	Year of purchase. 31-3-1947.	2nd hand

The above set is not seen in the Power House From the statement,it is learnt that the set was purchased in year 1947.On inquiry with the local manager of the Coy.,no definite information was supplied by him regarding the location of the set. The Coy.should be asked to supply the exact whereabouts of this set which was purchased 3 years ago.

THE BIHAPUR ELECTRIC SUPPLY CO.LTD.

El.Br.(I).
O. N.

The following El Supply Coys. have applied for constitution of Rating Committees under the provisions of Ely. (Supply) Act, 1948 and also for variation in the prescribed period of depreciation in respect of their assets:-

(I) The Anand El. Supply Coy., Ltd.

(II) The Sinnar El. Supply Coy., Ltd.

(III) The Nadiad El. Supply Coy., Ltd.

(IV) The Manmad El. Supply Coy., Ltd.

(v) The Yeola El. Supply Coy., Ltd.

(VI) The Licensee, Palghar Navli El. License, 1939.

(VII) The Godhra Ely. Coy., Ltd.

(VIII) The Ahmednagar Ely. Coy., Ltd.

(IX) The Rander Ely. Coy., Ltd.

Report on the physical condition of the assets of the Coys. at S.Nos.(I) to (VII) have so far been received from the Elecl. Commr. That officer has been expedited for submission of reports in respect of the Coys. at S. Nos. VIII and IX above.

2. The following additional El. Supply Coys. have applied for constitution of Rating Committees only:-

(I) The Sangamner El. Supply Coy., Ltd.

(II) The Amreli El. Supply Coy., Ltd.

(III) The Sanand El. Supply Coy., Ltd.

(IV) The Fatte El. Supply Coy., Ltd.

The Elecl. Commr. has been requested to submit reports on the physical condition of the assets of these Coys. Report in respect of the Sangamner El. Supply Coy., Ltd., has only been recd. so far from the Elecl. Commr. These Coys. have also been asked to state the definite periods of depreciation desired to be adopted by them in respect of their various assets. Replies from them are awaited.

3. .....

3. Statements showing the periods of depreciation of all the assets of the Coys., except generating sets, in respect of the Coys. mentioned at S. Nos. (I) to (VII) in para. 1 above and at S. No. (I) in para. 2 above are attached in respective files. A consolidated statement showing similar information in respect of generating sets of these Coys. is also prepared as directed by the Secy. In this connection it may be stated that only the Supply Coys. at S.Nos.(I) to (III) and (VIII) in para. 1 above have stated the definite periods of depreciation desired to be adopted by them in respect of their various assets. The remaining Coys. have, therefore, been requested to furnish this information at an early date.

4. The licensee at S.No.(VI) has since informed that he does not now want any variation in the prescribed period of depreciation. The remaining Coys. have again been expedited in the matter. Replies from them may be awaited.

Id. B.D.P.
6-5-50.

I have indicated the periods of depreciation for the plant and machinery, in the consolidated statement and for the remaining depreciable assets in each of the separate statements in the file concerned in respect of the following licensees:-

(1) The Anand Electricity Supply Co., Ltd.

(2) The Sinnar ----- Do -----

(3) The Nadiad ----- Do -----

(4) The Palghar-Nevli ----- Do -----

No proposals could be made in respect of the remaining Coys., either for want of the Elecl. Commr.'s report, or a reply from the Coys. regarding the definite periods desired to be adopted or for want of both.

The licensee for Palghar-Navli has informed that he does not want any variation in the prescribed periods

of .....

of depreciation. This is rather surprising when one sees that this concern is continuously recurring at a loss, during the last three years and it has so far (upto 30th June 1949) provided Rs.18,468, which represents 9.7% of the total depreciable assets towards the Depreciation Fund, in the 8th year (out of the total license period of 30 years) of its working.

It is presumed that the issue of Govt. Orders about the variations of the periods of assets of the Coys., which have applied for the Rating Committee (mentioned in para.1 of the O.N.) will have to be deferred till the reply from the remaining Coys. about the definite periods of depreciation and the Elecl. Commr.'s reports about the condition of the assets in some cases are received.

Id. K.V.J(oglekar)
8-5-50,
Dy. Secretary.

We have to pass orders early about Nadiad (Anand), whose case is under examination by the Rating Committee. Before doing so, however, we must have the replies of the El. Supply Coys. at S.Nos. 4 to 7 (vide A above) so that we can pass consistent orders on the seven cases at I to VII (on which inspection reports are ready).

The Coys. at S.Nos. 4 to 7 to be expedited every week.

Id. G.V.B(edekar),
9-5-50,
Secretary.

El.Br.(I).

Resubmitted.

2. The Supply Coys. mentioned at S.Nos. (IV), (V) and (VII) in para. 1 of the O.N. within have since stated the periods of depreciation desired to be adopted by them in respect of their various assets. Periods of depreciation in respect of plant and machinery of these Coys. have been indicated in the Consolidated Statement. Periods of depreciation in respect of the remaining depreciable assets have

been .....

been shown in the respective files.

3. With regard to the application from the licensee, Palghar-Navli El. License, 1939, it may be stated that since the licensee has now intimated that he does not wish to have any variation in the prescribed period of depreciation in respect of his assets, it does not seem necy. to expedite him in the matter. His application may perhaps be treated as cancelled and he may be informed accordingly.

4. It is for orders what periods of depreciation may be allowed in respect of thevarious assets of the Supply Coys. mentioned at S.Nos. (I) to (V) and (VII) in para.1 of the O.N. within.

Id. B.D.P.
18-5-50.

The periods of depreciation which may be adopted for the plant and machinery and the remaining assets of the following Coys. have been indicated by me in the appropriate places:-

(1) The Manmad Elec. Supply Coy.

(2) The Yeola ----- Do -----

(3) The Godhra ----- Do -----

Periods for Anand, Nadiad and Sinnar Coys. were already shown.

So far as the sets are concerned the following basis has been generally followed for these concerns, which have applied for the constitution of the Rating Committee:-

Diesel - Plant

(1)	New sets installed before 1947. ...	30 years
(2)	Secondhand sets ----- Do ----- ...	25 "
(3)	New sets installed after 1947 ...	15 "

Steam - Plant

(1)	New sets	35 "
(2)	Secondhand sets...	30 "

As .....

As remarked by the Secy. on the letter received from the Association of Electrical Undertaking, no periods have been prescribed in the case of the assets, for which the Coys. have not stated any definite periods.

Submitted.

2/- The Bijapur El. Supply Coy., Ltd. requests for variation in the prescribed period of depreciation in respect of its certain assets. The report submitted by the Elect. Commr. on the physical condition of the Coy's assets will be found on pp 3-17 ante. Attention in this con. is also invited to the notes on pp. ante.

3/- A comparative statement (p 25) showing the information re: periods of depreciation as laid down in the Ely. (Supply) Act, 1948, as applied for by the licensee, as recommended by the Elect. Commr., &c., in respect of the various assets of the Coy., except generating sets, is attached within. Similar information in respect of the generating sets of the Coy. is given in the Consolidated Statement* kept below.

* Stmt. at pp 7-8

4/- Please see para. 3 (p. 3 f.n.) of the Coy's letter (pt) wherein it has pointed out a difficulty in determining the date from which the period of depreciation is shd. be counted in respect of the assets which were taken over by it from the original licensee in 1936. The Coy. states that these assets have

have been acquired during the period of 1929 to 1936 & there is no data in the possession of the Coy. in respect of their period. It is, however, seen from the Elect. Comm's report that he has already obtained the requisite information from the Coy. No action therefore appears to be necy. on this point raised by the Coy.

5|- It is for orders what periods of depreciation may be allowed in respect of the various assets of the Coy.

20-1-51.

Ref. No. G-314 of 19 50-51.

BIJAPUR 18- 9- 19 50.

To,

The Deputy Secretary to the Government of Bombay,
M.S.M. RY.
Public Works Department.

Subject :- Application under the Electric Supply Act 1948 Sixth Schedule Paragraph XVII Proviso to clause (8).

Regarding variation of the prescribed periods in respect of the ~~xxxxxx~~ Assets of the Company.

Sir, ----------*----------

The undersigned wish to approach you to secure the variation in the prescribed periods in respect of the following assets forming part of the fixed assets of the Company as these periods given in the Table attached to the 7th Schedule are - considered to be unreasonable (short) considering the physical condition of the assets.

	Assets.	Period prescribed in the table to the 7th Schedule.	Period requested to be granted.
1).	Power House ...	30 years ...	50 years.
2).	Plant & Machinery ...	15 " ...	25 "
3).	Mains ...	30 " ...	35 "
4).	Meters ...	15 " ...	20 "

2) The business originally was a Proprietary Concern started in the year 1929. The business was taken over by the ~~Company~~ present Company in 1936. The business was carried on with the small units of the machinery but replacements of plants of larger capacity were made in the years 1934, 1935, and 1936 with the result that by the time the Company took over the business ∅ the capacity of the ~~Company~~ plants were full fledged. Major repairs and replacements to the same plants were being carried out from time to time during the last 10 years with the result that the macinery has been maintained in a good running condition and hence there is the necessity of extending the period. All the expenses of such replacements were

were however charged to Revenue Account and not added to the assets.

2\- With regard to the above assets the following difficulty has arisen. So far as the Company is concerned the original cost of these assets is the value at which they were taken over. The difficulty is in determining the date from which the prescribed period is to be counted for the purpose of depreciation, as these assets have been acquired during the period 1929 to 1936 and there is no data in the possession of the Company in respect of the period. We therefore request you to fix the prescribed period in respect of Assets taken over in 1936.

1\- So far as the additions to any of these above assets after 1936 are concerned, there is no difficulty, since the Company possess full records of this period.

3\- All the additions from the year 1936 are new except one Ruston 150.B.H.P. Engine with Generator added to Plant in the year 1941 for which however period has to be prescribed. This Engine also has been subjected to major repairs and replacements and is kept in the running condition.

Soliciting the favour of an early reply.

Yours faithfully,

MANAGER.
THE BIJAPUR ELECTRIC SUPPLY CO. LTD
BIJAPUR.

To,

The Deputy Secretary to the Government of Bombay
Public Works Department.

Subject :- Electricity (Supply) Act, 1948.
Prescribed period of depreciation of assets and submission of Annual Statement of Accounts for 1949-50.

Sir,

The Executive Engineer(Diesel & Steam), for Electrical Commissioner with the Government of Bombay had visited our - Power House on 4th December 1950 for inspecting our Assets for the purpose of fixing the Prescribed Periods of our Assets. We have not so far received any communication from you with regards to the fixation of the prescribed period on the recommendations of the Executive Engineer (Diesel & Steam). We would request you to please give us the prescribeds at an early date.

We are unable to complete the Annual Statements of Accounts for 1949-50 until we receive your decision on the "prescribed periods."

The Registrar of Companies is not giving us any extension of time for submission of our Accounts.

Thanking you very much in anticipation.

We remain,
Yours faithfully,

THE BIJAPUR ELECTR. SUPPLY CO. LTD.
BIJAPUR.

Copy forwarded with respects to The Executive Engineer, (Diesel & Steam), for Electrical Commissioner with the Govt., of Bombay, for information.
